RE: 20-CV-9119

Dear Honorable Judge Cott:

Plaintiff Eric Andrew Perez is writing this letter to inquire into the status of his judicial conference and the schedule for responses to defendants' motions to dismiss. Plaintiff Perez has proven the negligence and criminality that the defendants have displayed during this case and that there are a group of clandestine clowns that have been personally responsible for Perez's socio-economic issues with links to white supremacy and law enforcement that have malicious intentions toward Mr. Perez. This has been nothing but a scheme for these defendants and their counterparts to segment this society into those that are involved with their company and those that are regulated by these clowns through creating and perpetrating an adversarial relationship between the government apparatus and disenfranchised persons like Mr. Perez.

Mr. Perez does not wish to joust with individuals who have been granted privileged positions in life because they are protected under the color of law or that they have been granted defense contracts or work for foreign intelligence services. Plaintiff Perez does not wish to debate on paper his rights to have his information reported accurately or the fact that there are a group of individuals from Jefferson County and other rat districts that have perpetrated this scheme against Perez for their own benefit and to ensure the statistics on disenfranchised veterans and falsely incarcerated individuals come to pass. The FTC, Federal Courts, and the defendants themselves would rather carry on with this charade instead of fixing the errors on Perez's credit report and ensure his report is cleared of false late payments and inaccurate information.

Plaintiff Perez has not received any response from the Court based on his request to reinstate his judicial conference or why his last conference was canceled, but a someone orchestrating this case was allowed to take his place in the conference. Respectfully, Perez requests that his judicial conference be reinstated and that he receives confirmation and a schedule of his responses to the defendants. This is a travesty of justice and is being perpetrated for a group of pedophiles, retards, and informants in plaintiff's opinion.

Perez request this relief because it is right and just.

Sincerely,

Eric Andrew Perez
